Notes

WELCOME TO THE UPWARD BOUND MATH/SCIENCE COMMUNITY AT THE UNIVERSITY OF DELAWARE!

You are about to become part of a unique and very special community, setting out on an adventure that you will remember for a lifetime. While you are here, you will meet many new and exciting people, you will learn new things about yourself and your education, and you will have a good time doing it.

This is your copy of the UBMS Student Handbook. Read it, become familiar with its contents, and respond to the program contract by signing and returning to us your agreement to abide by the rules and policies of our program. If there is anything unclear to you as to our expectations for members of the community, please discuss it with us as soon as possible. It is crucial to our sense of shared responsibility that the lines of communication are always open.

What the Program is Like

The goals for the six-week program include increasing your academic skills, social interactions and desire to succeed in school, within the structure of a closely-knit community. One of the ways in which our community interacts is through Town Council. **Each day begins with the Town Council meeting, including the entire residential community and members of the administrative staff.** This time is used to pass on program information, deal with community concerns and share successes. Each Friday, a recorder and a sergeant-at-arms are elected to facilitate these meetings during the week following their election to the Council. The recorder takes attendance and keeps notes on the proceedings of each meeting, and the sergeant-at-arms is responsible for ensuring that participants are at the meetings and for keeping order in a polite, effective way. **Everyone is required to be at Town Council, and everyone must be on time.**

Class assignment is determined by the program administration, using information from the interest survey and your high school transcripts. Each student will attend English/Latin, Math, and Science. The classes that you attend on Mondays through Fridays are small. Classes are taught by experienced teachers assisted by tutors, so that each student receives a great deal of attention. Your RA/tutors will be present during study hours as well as during class times, so the amount of support available to you is considerable. Take advantage of these resource people! They have been successful college students for some time, and are willing to share their leadership and insights with you--they deserve your respect and cooperation.

There is a study time Monday through Thursday from 6:30-8:30pm. At this time, students are in their assigned classrooms, quietly studying. You are expected to work on assignments in all classes throughout the study period; should you have problems in adequately budgeting time to prepare for a given class, the tutor(s) will help ensure adequate attention in addition to giving advice on study skills. Students not doing the required homework will be assigned to a supervised study.

Stipends will be disbursed weekly. This is an opportunity for you to discuss your progress individually with UBMS administrative staff, as well as for concerns/congratulations on the part of UBMS staff to be expressed to individuals. In some instances, a portion (or all) of the stipend may need to be withheld in order to emphasize the need to improve in program participation. *Stipends take time and energy for all concerned. We appreciate your patience in waiting for your turn each week.*

In order to foster community spirit, we ask that attention to the UBMS experience be maximized. In order to achieve this, please help us by arranging appointments, etc. for either before or after the program dates or for the weekend. Clearly, emergency situations may arise, and these will be handled on a case-by-case basis by the UBMS Director.

YOU WILL GO HOME ON ALL WEEKENDS OF THE PROGRAM. Normal pickup time is scheduled for **Fridays from 4:00-6:00pm**. Regular drop-off will be **Sundays from 5:00-7:00 p.m.** **Students will remain on campus during one weekend in July (18th-20th).**

The University of Delaware will be closed on Friday, July 4th. Students may be picked up Thursday, July 3rd between 4:00-6:00pm.

***Seniors will stay late on July 25th and will need to be picked up after their Senior Dinner ends between 7:00 –8:00 p.m.**

The schedule on the next page summarizes a typical day in the UBMS program.

UBMS SAMPLE DAILY SCHEDULE
June 22 – July 31, 2008

7:30-8:00am	BREAKFAST
8:00-8:30 am	Town Council
8:30-10am	ENGLISH/LATIN
10:10-12pm	SCIENCE
12:00-1pm	Basic Math Skills Class/Free Time
1:00-2pm	LUNCH
2:10-4pm	MATH
4:00-5pm	RPM / Free Time
5:30-6:30pm	DINNER
6:30-8:30pm	Study Hours
8:30-10:45pm	Free Time / Planned Activities & Events
10:45pm	Room Curfew
11:30pm	Lights Out

CONTRACT AGREEMENT

Rules for the UBMS community exist for two main reasons:

- 1) *to ensure the safety of all UBMS participants and their belongings, the property of UBMS and the University, and*
- 2) *to ensure that students take academic and personal responsibility during their stay in the UBMS program. This includes UBMS' maintaining a good reputation at the University of Delaware.*

Please understand that, as the staff of the UBMS program, we will do our utmost to preserve the dignity of the individual community member. At the same time, we must provide safety for the community as a whole. Maintaining this balance is a constant challenge in any committed community.

Please read the following agreement. You will receive an 8 1/2 x 11 copy to sign and return on the first night of the program. **Please understand that your responsibilities include, but are not limited to the elements listed below.**

1. **PARTICIPATION.** I understand that my success, along with the success of other UBMS students, depends upon my participation and commitment. I agree to participate 100% in the classroom, recreational activities, evening study sessions and all other UBMS events. I agree to cooperate with the UBMS staff and teachers. I understand that the six weeks is a complete commitment and that other activities must be scheduled during non-program times (e.g., on the weekend).
2. **RESPECT.** I agree to respect and honor myself and teachers, staff, university personnel, and students. I agree to respect myself and others by not displaying excessively affectionate behavior. I agree not to possess obscene or pornographic materials out of respect for myself.
3. **ACADEMIC WORK.** I agree to complete all the work assigned by my teachers to the best of my ability.
4. **ATTENDANCE.** I agree to attend all Town Council meetings, class periods, study sessions and program events. If I am ill, I agree to report this to the appropriate program staff member. I agree to be on time for all classes and other UBMS events. I understand that being late to class without having a valid reason will be marked as an unexcused absence.
5. **CLASSROOM BEHAVIOR.** I agree to be attentive to what is going on in the classroom.
6. **INTERNET BEHAVIOR.** I accept responsibility for appropriate use of the Internet.
7. **STUDY HOURS BEHAVIOR.** I agree to use the study hours as fully as possible, using the

resources of staff and peer tutors whenever help is needed, and refraining from engaging in socializing or otherwise disrupting the studying of other students.

8. **LANGUAGE.** I agree to speak positively at all times and not to use profane language out of respect for myself and others. I agree to refrain from spreading rumors about any member(s) of the UBMS community.

9. **LIVING ARRANGEMENTS.** I agree to respect the privacy of others and their desire for sleep. I agree not to be in another person's room without that person's permission. I agree to be in my room from 10:45pm to 6:30am the following day. I understand that "hall sports" are expressly forbidden by the University of Delaware Residence Life Office. In this spirit, I agree to observe quiet hours established by residence hall staff and not to make loud noises or play pranks. I agree to turn the lights out by 11:30pm nightly.

10. **TELEPHONE.** I agree to limit my calls on the hallway phone to five minutes. I understand that, because one of the goals of the program is to develop the UBMS community, a personal phone is prohibited, and agree to abide by this policy. If a phone is found in my room, it will be confiscated and returned at the end of the week, to be taken home. If this occurs a second time, I understand that it will not be returned until the end of the summer program.

11. **BEEPERS.** I understand that beepers are not allowed in the program; any beepers found will be confiscated and returned at the end of the week, to be taken home. If a beeper is found a second time, I understand that it will not be returned until the end of the summer program.

12. **VEHICLES.** I agree not to accept a ride from anyone (or drive a vehicle) driving a non-program vehicle without written permission from my parents and approval by the UBMS Director.

13. **SECURITY.** I agree to reimburse the program for any lost room key (\$113) or PDI (\$113), or special program card (\$31). The PDI card is used to gain access to the locked residence hall entrance, and will not work between the hours of 10:00pm and 6:00am. I understand that I am not to loan my key or PDI to any person.

14. **VISITORS.** I agree not to admit non-UBMS people into the residence hall at any time without the written permission of the UBMS Director or the Resident Director.

15. **VISITING.** I agree to visit other residence halls only with prior written permission from the UBMS Director or the Resident Director.

16. **PERSONAL PROPERTY.** I agree to leave the following items at home: expensive

jewelry and other valuable items, televisions, computers, large sums of money, pets, and other items that will work against UBMS community-building. I assume responsibility for all personal property brought to the program and respect the property rights of others.

17. **BOUNDARIES.** I agree to stay within the physical boundaries set by the program. I will respect the need for supervision by program staff when outside these boundaries.

Bottom-Line Agreements (infractions may result in dismissal from the program):

I agree to abide by the following essential regulations while attending the University of Delaware Upward Bound Math/Science program:

1. I agree not to bring, possess, sell or consume ALCOHOL.
2. I agree not to bring, possess, consume or sell any DRUG, medication or substance not prescribed for me by my doctor.
3. I agree not to POSSESS, SMOKE or CHEW tobacco products.
4. I agree not to PHYSICALLY ASSAULT, VERBALLY ABUSE or SEXUALLY HARASS anyone.
5. I agree not to engage in INTIMATE SEXUAL ACTIVITY.
6. I agree not to HAVE VISITORS PRESENT WITH THE DOOR TO MY ROOM CLOSED. *I further understand that males are not allowed on the females' floor and females are not allowed on the males' floor and will abide by this policy.*
7. I agree not to VANDALIZE or STEAL any-one's property.
8. I agree not to CHEAT or PLAGIARIZE (steal another's work).
9. I agree not to bring, possess or use WEAPONS or engage in TERRORISTIC THREATENING.
10. I agree not to GAMBLE.
11. I agree not to bring, possess or use FIREWORKS.
12. I agree not the LEAVE THE RESIDENCE HALL PREMISES OR OVERSTEP THE BOUNDARIES defined by the staff between 3:00pm and 6:00am without the approval of a staff member.

Broken bottom line agreements: Any violation of bottom-line agreements will result in an immediate Director's conference. It will also include immediate notification of parents/guardians. Expulsion from the program may result.

Residence Hall Student Write-up Policy

Residence Hall Staff are required to write students up for inappropriate behavior and/or behavior and actions that violate program rules. If the behavior and/or action violates a bottom-line rule, the UBMS Resident Director and Program Director will be notified immediately, whereby the offending student will be dismissed from the program.

When residential staff observes behavior and/or actions that constitute a write-up, the staff member(s) will:

1. address the issue with the student; if the behavior(s) and action(s) are severe, staff will involve the Resident Director, further action, such as notification of the program director, may follow).
2. communicate to the student that he/she is being written up and explain why if it has not already been made known to the student.
3. the write-up will be logged into the Write-Up Log in the residence hall.
Administrative staff will be informed of student write-ups on an ongoing basis.

Following is a list of typical behaviors and actions that constitute a write-up. This list is not exhaustive, beyond this list, residential staff have the authority to make judgment calls based on the UBMS program philosophy and rules outlined in their handbook, as to whether the behavior or action is deserving of a write-up.

1. Inappropriate use of study hours, consistently disrupting other students and refusal to engage in academic pursuits during this time;
2. Not signing out of study hours to go to the computer lab and signing back in before study hours end;
3. Not signing out during free time;
4. Forging a program staff's signature on any program logs or paperwork;
5. Inappropriate Internet Behavior (immediate notification of RD and program director, as student has violated the University of Delaware's Responsible Computing Policy; further action likely);
6. Late to Town Council
7. Use of profane language
8. Disrespectful Behavior (includes but is not limited to: yelling/shouting in an aggressive and/or negative manner; name calling, stepping into another's personal space (getting in their face) with the intention to subdue, intimidate or frighten another person or community member; ignoring, walking away, or not complying with program staff directions; spreading malicious rumors;
9. Having, using, or hiding their cell phones while students are on campus (students may have their cell phones during check-in and check-out on Sunday's and Friday's. However, any student caught with a cell phone from 8pm Sunday through 4pm Friday will be written up and the cell phone confiscated and held by the RD);

10. Not in room by 10:45pm (w/o prior approval from staff);
11. Lights on after 11:30pm (w/o prior approval from staff)

JUDICIAL REVIEW BOARD

I. Purpose

The Board may hear and act upon violations of the University of Delaware and Upward Bound Math/Science program rules and policies. The Board affords students the opportunity and responsibility to share in enforcing the guidelines by which all community members are expected to abide.

II. Philosophy Behind the Judicial Review Board

Upward Bound believes that everyone is responsible for his/her own actions and should learn to live within the rules of the community. We also believe that you should assume the responsibility for following the rules of this community. Thus, the consequences of breaking the rules are designed to be appropriate for the infraction. Our hope is that, as a result of these consequences, those who have broken the rules will begin to accept responsibility for their actions.

III. Makeup of the Board

The Board is made up of three student participants and two staff members. Members of the Board are appointed every two weeks by the Resident Director.

Newly appointed Board members have an orientation lunch with the Residence Hall Director on the Friday prior to taking office; subsequent meetings will be held to organize themselves and to deal with infractions.

IV. Procedures of the Board

The Board proceeds in the following fashion:

- A. The charging party states his/her reason why the student is being brought before the board. The student is present to hear the charges. The Board may question to clarify.
- B. The student presents his/her version of the incident in question. The Board may question to clarify.
- C. The Board allows both the student and charging party the opportunity to respond to each other's statements.
- D. The Board goes into executive session to determine guilt or innocence and the appropriate action.
- E. The student returns to hear the decision. If found innocent, no further action

- is necessary. If found guilty, the Board determines the restitution or penalty.
- F. The student being charged agrees to be responsible for carrying out his/her penalty and one Board member serves as an overseer.
- G. If the student fails to carry out his/her penalty, the student will appear again before the Board.
- H. The Recorder posts the Board's actions in a place determined by the Board.

V. Examples of Judicial Review Board Actions

- A. *Violation: Late to Town Council.*
Penalty: Student is responsible for straightening up the common room for one week.
- B. *Violation: Disruption of study hours.*
Penalty: Public apology to the community and stated plan for not repeating the behavior.

THE UPWARD BOUND MATH/SCIENCE TEAM CHALLENGE

Teamwork (as defined by Wikipedia) is the concept of people working together cooperatively.

Skills necessary for Teamwork, AND expected of all UBMS team members

(in addition to any necessary technical, physical, and/or cognitive skills; there are a wide range of social skills that are key to successful teamwork)

- **Listen** – it is crucial to listen to other people’s ideas. When members are able to share their ideas openly, the initial idea will produce other, often better, ideas.
- **Question** – it is important to ask questions, interact, and discuss the objectives of the team.
- **Persuade** – each individual member is encouraged to share, defend, and evaluate or rethink their ideas.
- **Respect** – it is critical to treat your fellow team members with respect at all times and to provide support of their ideas and efforts.
- **Help** –helping is essential, as it is the general basis of teamwork; to help one’s team members.
- **Share** – it is necessary to share with your team in order to create the atmosphere of teamwork (where all members are making positive contributions toward the team goal).
- **Participate** – it is essential that each individual member within the group participate in helping to attain the goal of the team.

Team Rules and Guidelines

1. Students will be randomly assigned by program staff to one of eight teams.
2. There will be two separate components; a summer component and an academic year component. Teams will be randomly assigned at the beginning of each component.
3. Once assigned to a team, a member must remain in that team throughout the course of that component (summer or academic year). Teams will not be reassigned or changed.

4. Each team will elect a team captain, to serve as a leader for the group.
5. Each team will decide on an appropriate team name.
6. During the summer component, there will be RA/Tutors assigned to each team. Their role is primarily to act as a facilitator for the group - helping to resolve problems that the group cannot solve by themselves. RA/Tutors will also participate as team members on Field Day.
7. While team captains will provide leadership to the group, the entire group is responsible for participating in team events and decision making. In situations where a consensus cannot be made, the team captain will take a poll by show of hands to determine majority rule.
8. Point values will be assigned to specific individual and team events/activities. Students will have the opportunity to earn points for their teams, both through their individual participation in the program and through team participation.
9. The team with the most points at the end of the program component wins. The winning team will be rewarded with an activity of their choosing (within reason; administrative staff will have final say depending on appropriateness of the chosen event and the financial cost).
10. During the summer component, there will be a "team points board" in the residence hall. At the end of each week, points earned during that week will be tallied and updated on the board by administrative staff.
11. During the academic year component, team points will be updated monthly and posted via the UBMS webpage and/or by email.

Upward Bound Math/Science Program, 2008
June 22—July 31, 2008

Dr. Avron Abraham
Director, University Studies Program

Lys Murray, Associate Director,
Academic Enrichment Center
Beth Kowalski, Student Enrichment Coordinator
Lynn Crosby, Staff Assistant

Resident Summer Staff

Quentin Speight, Resident Director
Kheon Hendricks, Night Coordinator
Carl Suddler, RA/tutor, English
Olunife Ojediran, RA/tutor, Algebra II
Mfon Umoren, RA/tutor, Pre-Calculus
Khalid Bilal, RA/tutor, Calculus
Walter Blair, RA/tutor, Chemistry
Marjorie Velez, Physics
Angela Johnson, Biology

Summer Teaching Staff

Jennifer Hollstein, English/Latin
Karima Clarke, English/Latin
Jessica Harper, English/Latin
Joe Scott, Algebra II/Geometry
John Kudlick, Precalculus
Matt Kramer, Calculus
Therese Dekleva, Chemistry
Peter Hannaford, Physics
Dr. Carlton Rodney Cooper, Biology

THE ACADEMIC ENRICHMENT CENTER

The AEC assists the University of Delaware with the retention of students through its collection of undergraduate and pre-college programs, services and activities. Of particular interest to this unit is the retention of low-income/first-generation students, university freshmen, undergraduate and graduate students with diagnosed learning disabilities, selected minority scholars and other special interest populations. In many cases, the ASC coordinates its efforts with other University offices.

The Upward Bound and Upward Bound Math/Science programs combine academics with systematic academic support, general counseling and cultural enrichment experiences through summer residential programs and academic year experiences.

TRIO

In 1965, Congress established a series of programs to help low-income Americans enter college, graduate and move on to participate more fully in America's economic and social life. These TRIO programs (initially just three programs, but now including Talent Search, Upward Bound, Upward Bound Math/Science, Student Support Services, McNair Scholars and Educational Opportunity Centers) now serve over 1,900 Americans between the ages of 11 and 27.

Students in Upward Bound and Upward Bound Math/Science programs are **four times more likely to earn an undergraduate degree** than those students from similar backgrounds who did not participate in TRIO.

The University of Delaware houses four TRIO programs:

Upward Bound

Upward Bound Math/Science

Student Support Services

McNair Scholars

Student Support Services and McNair Educational Scholars serves the same population as the Upward Bound programs as students go through their undergraduate college careers. In Delaware, there are SSS programs at UD, Delaware State University, and Del Tech Terry and Owens campuses. UD also hosts the McNair Program.
